

Art of Science

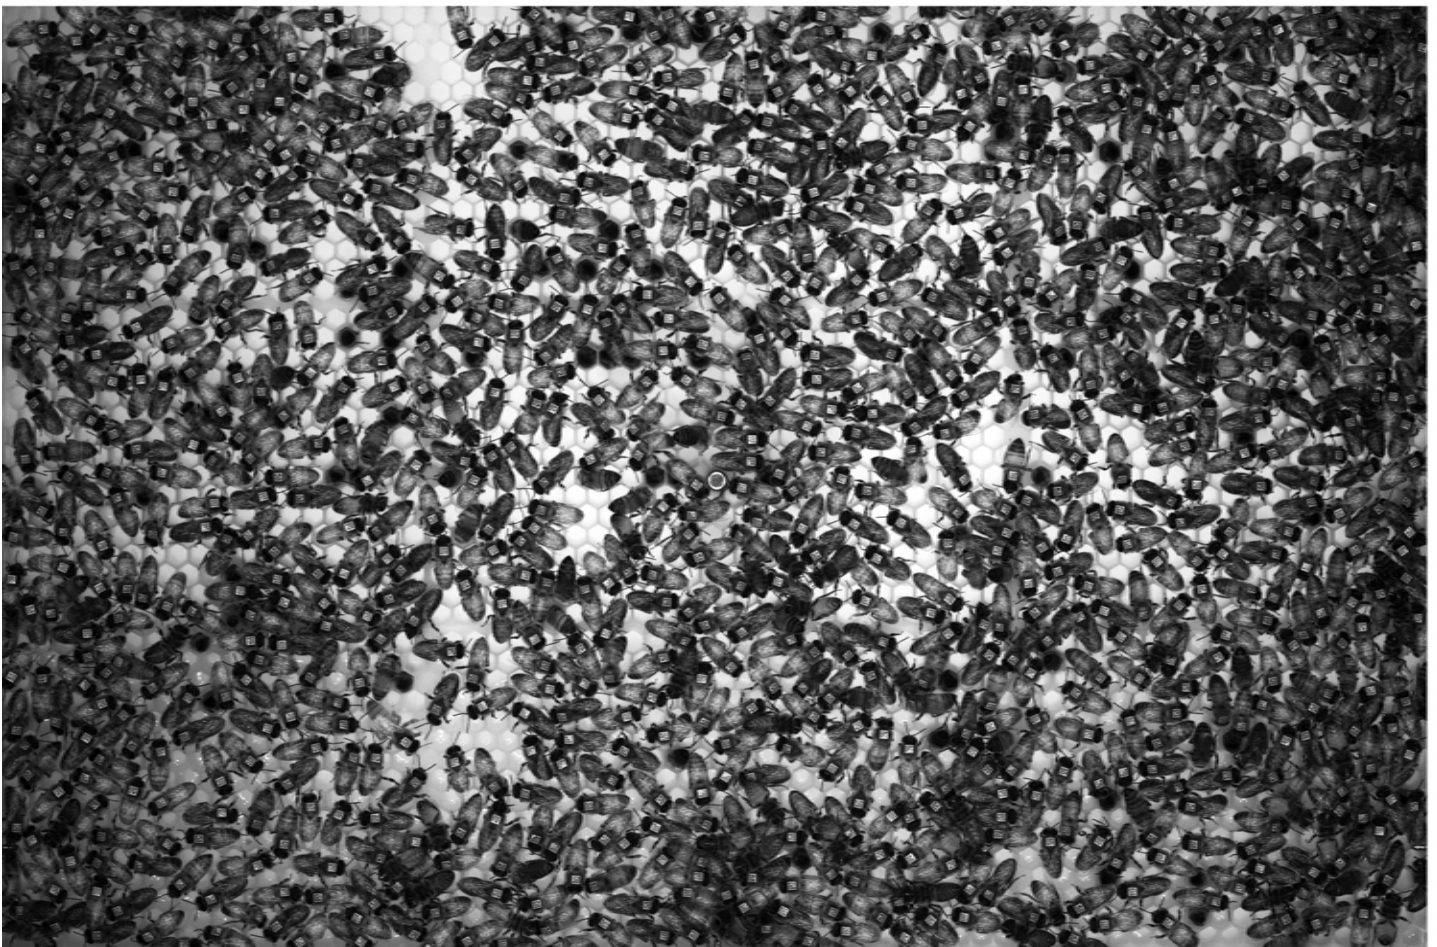

The IGB's Art of Science program is a celebration of common ground between science and art. Each exhibit comprises images from IGB's research portfolio, enhanced to highlight the beauty and fascination encountered daily in scientific endeavors. The Art of Science includes subjects from the microscopic to the holistic, from the physical to the abstract. Explore the galleries of the past with the following link:

There is science in all of our daily lives, use the poster design attached to create your own at home Art of Science poster!

Need some direction?

Art of science posters are made from taking scientific imagery and then using that as inspiration to create an art piece. Try to use one of these science images from our collection as inspiration or background for your poster, or start from scratch.

Research Hive Image.

Research Soybean Field Image.

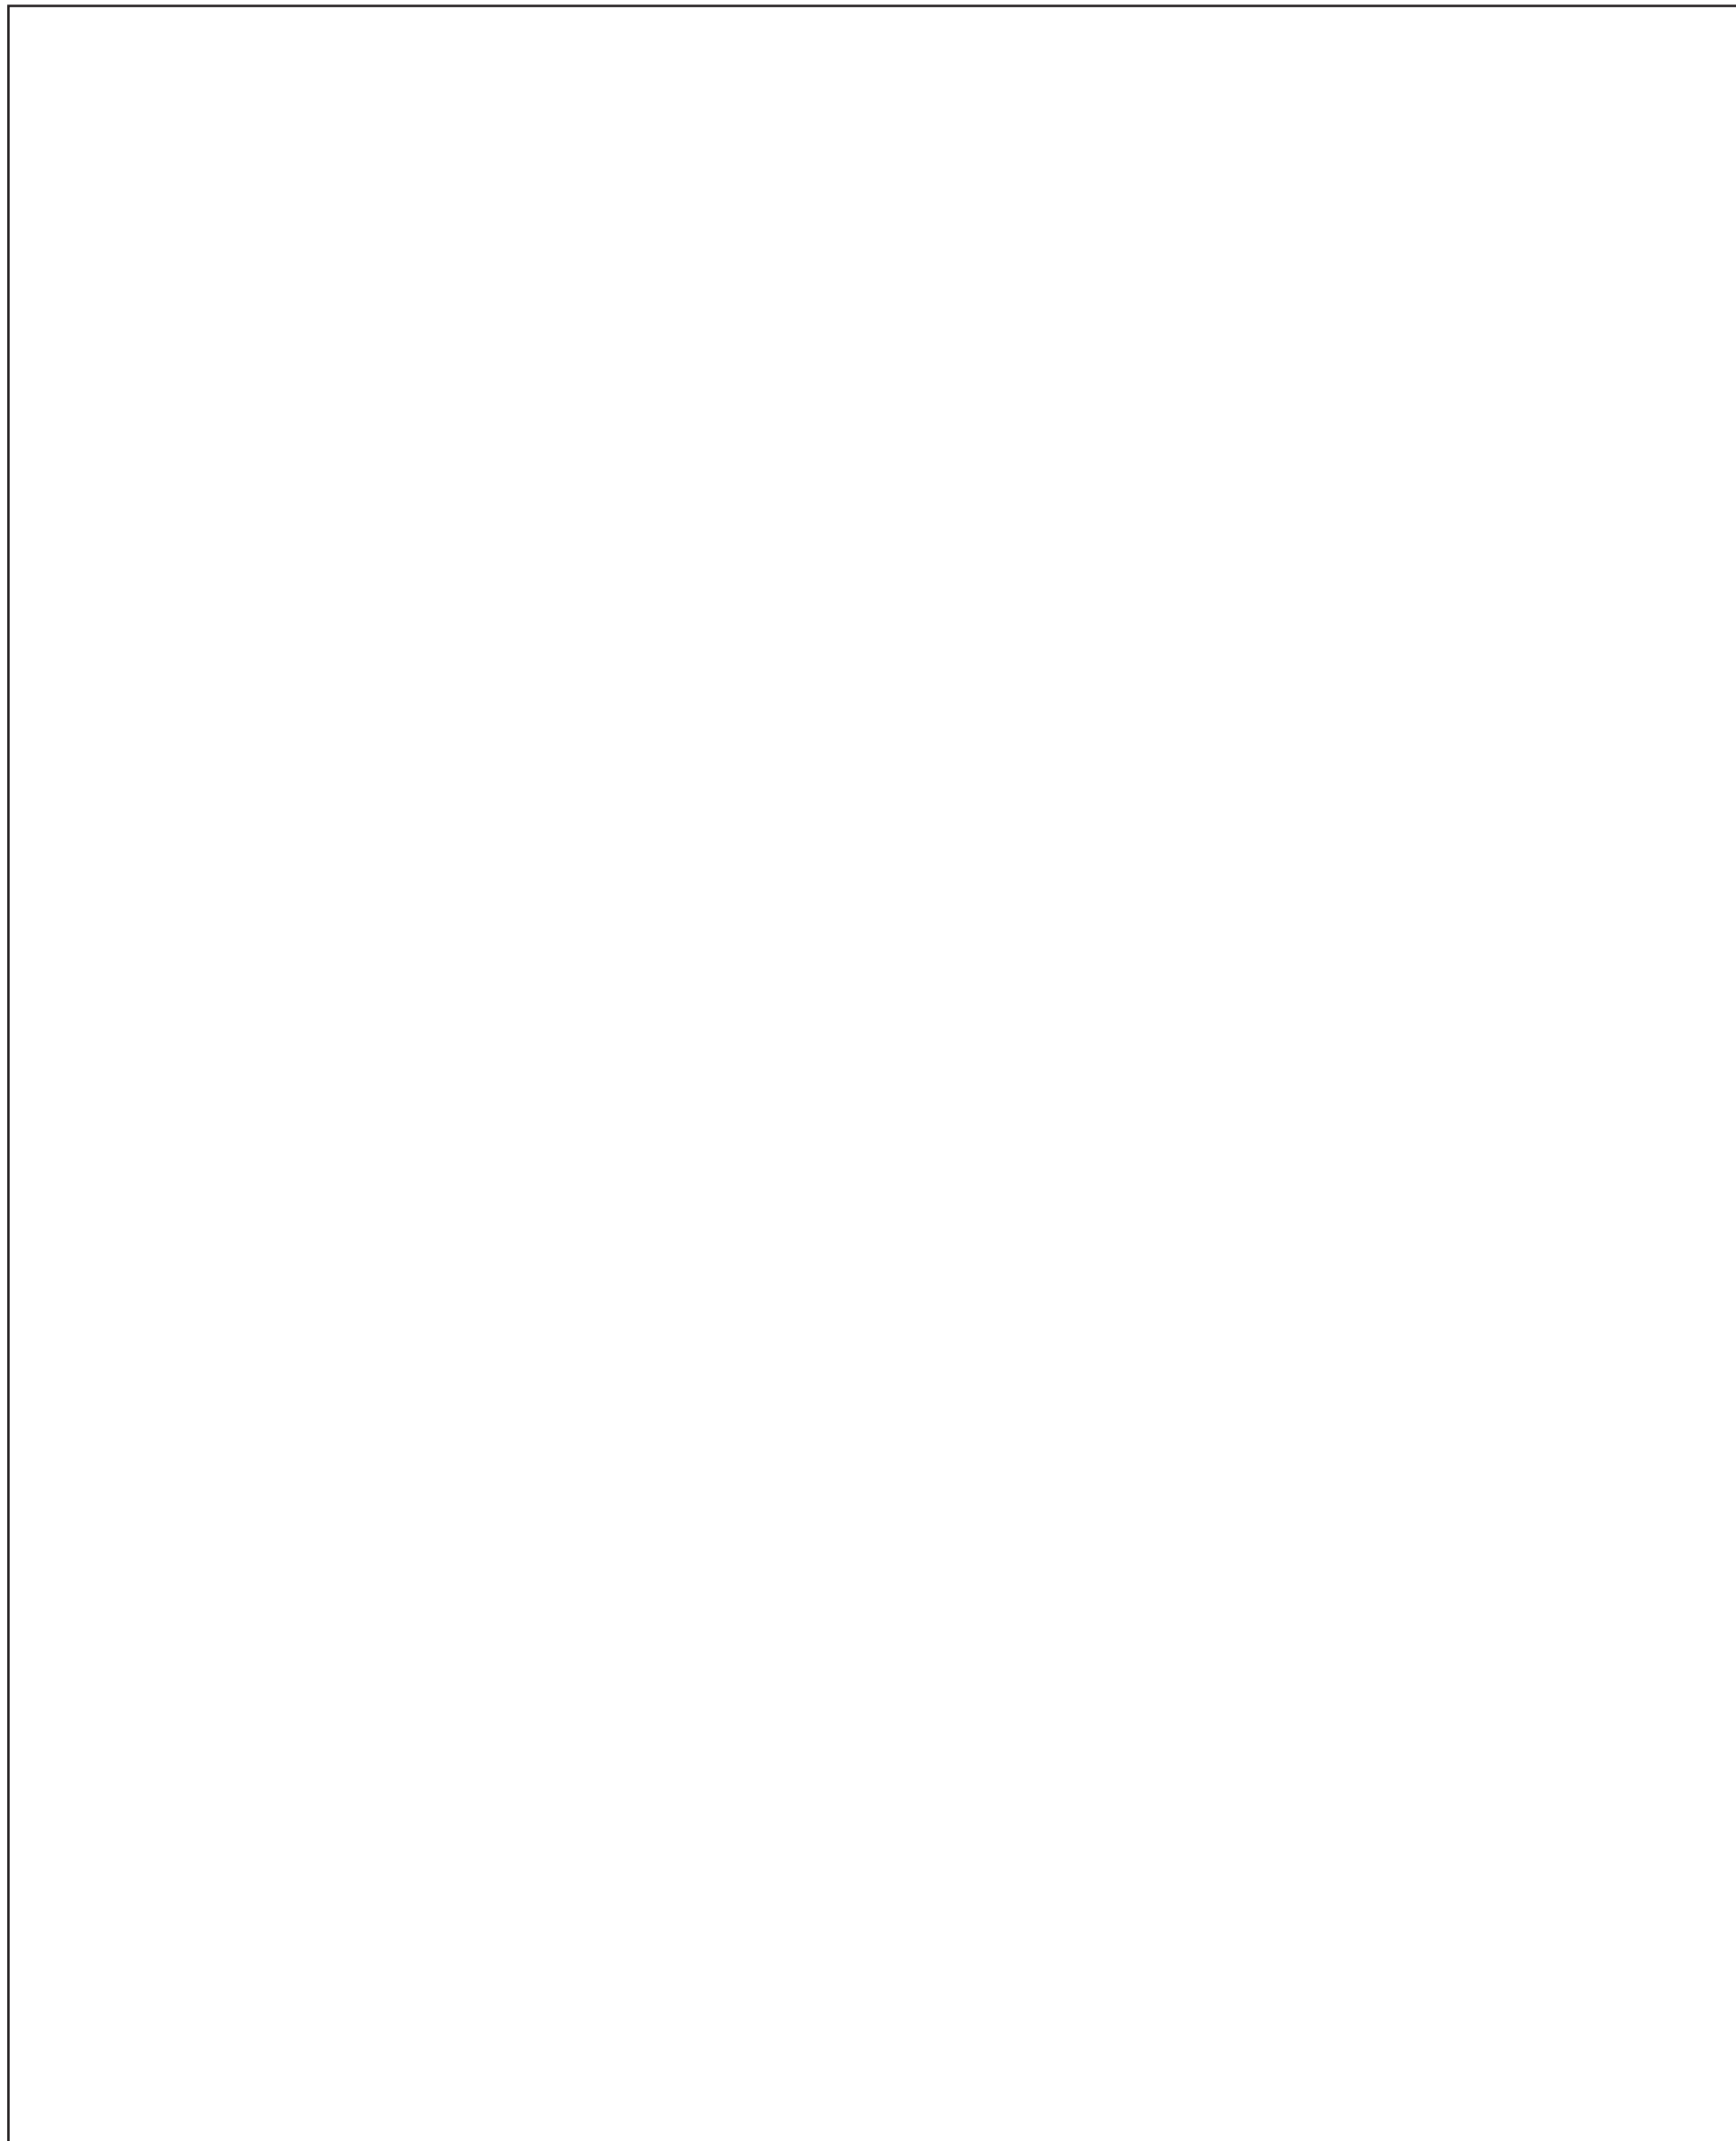

Sample microbe growing plate from our IGB labs.

After you make your Art of Science piece, take a photo and share it with us if you like. [Tweet](#) it at us! [Gram](#) it our way! Put it on [Facebook](#)! Tag us with #couchreach (that's outreach from your couch)!
